MILKIES HELP KEEP LIQUID GOLD FROM GOING TO WASTE!

July 10, 2016 by [Leah Sapphira](#) — [Leave a Comment](#)

As a breastfeeding mommy I cannot tell you how many times I have fed my daughter only to fill up my breast pad while she nurses. I often wondered just how much I was losing. I had thought about placing a cup under my breast to collect the leakage that

takes place. However, I could never figure out how to make that work while holding her since she will only feed laying on her side in my lap. So I gave up on my idea that I could save my leaked milk and just let that Hover Dam Break free, until I found [Milgies Milk-Saver](#)! Hallelujah someone was listening to my call. finally something that would allow m to not suffer the loss of my precious liquid gold.

Amazingly, Milgies works in every bra I have worn; sports, nursing, or regular. The Milk-Saver just slips right in and collects the drips that would have otherwise gone to waste. Milgies is made from a silicone material that is free of phthalates, chemicals and BPA's, perfectly safe for you and baby. When your done nursing or pumping you simply take out the inside piece and pour your liquid gold into a storage container, bottle or breast milk bag.

Milkies washes really easy by hand or in the dishwasher and it is super discrete so even if your out and about nursing or pumping it is not obvious that you have something underneath your adjacent breast. It also comes with a perfect storage case for when you are not using your Milkies Milk- Saver. At first glance when I pulled the Milk-Saver from the box and opened the storage container I thought It was too big and that no way was it going to fit in my bra without some trouble. But, to my surprise it fit snugly and was not too big at all.

Did you know that the average mother loses 1-4oz of breast milk during her let down of her unoccupied breast? With the Milkies Milk-Saver I never have to worry about that loss again. I have yet to fill up the Milk-Saver since it holds 2 oz of milk but I am sure that over the few uses I have done I have saved at least a whole bottle by now! Best of all Milkies Milk-Saver is available at most major retailers and online for only \$27.95 (think of all the breast pads you won't need).
